

## Curriculum Sequencing Overview

### Unit 2- Year 8 - Current Geographical Issues

Week	1	2	3	4	5	6	7	8
Date wb	14/11/22	21/11/22	28/11/22	05/12/22	12/12/22	02/01/23	09/01/23	16/01/23
Big Ideas (key concepts)	Global warming – causes and impacts on planet earth		Ocean plastic and its consequences		Use of resources and how they are rapidly depleting		Review of current geographical issues	
Lesson Topics Sequence	1. Causes of global warming 2. Effects of global warming 3. What should we do? What could we do?		4. What is plastic and why is it a problem in the ocean? 5. Global journey of plastic waste 6. Approaches to reducing ocean plastic waste		7. Resource availability 8. Causes of resource depletion 9. Effects of resource depletion		10. End of Topic Test 11. KTA 12. Review of end of topic test	
Key Assessments		What should we do, what could we do write up		Write up of the different approaches to reducing the plastic ocean waste			End of Topic Test	KTA
Home Learning	Self-quizzing Global Warming Keywords 1-6	Self-quizzing Global Warming Keywords 7-12	Self-quizzing Plastic Keywords 1 to 8	Creation of a plastic waste information sheet	Self- quizzing Resource Depletion Keywords 1 to 8	Revision for end of topic test	Revision for KTA	Self—quizzing on the section least confident on as identified in the KTA
